PROFESSIONAL SUMMARY

Aspiring Full Stack Developer familiar with React, Node.js, Express.js, MongoDB, and MySQL, with solid knowledge of core CS fundamentals. Experienced in building practical full-stack projects like an AI interview platform and a vehicle rental website. Strong team collaborator with good problem-solving skills and a focus on creating clean, user-friendly web applications. Eager to learn and contribute to real-world development tasks.

TECHNICAL SKILLS

Languages: C, C++, Javascript, HTML, CSS,
Frameworks/Libraries: React.js, Node.js, Express.js, Tailwind CSS
Database: MongoDB , MySQL
Tools: GitHub, VS Code, Postman
Core Fundamentals: Data Structures and Algorithms, OS, OOPs
Core Strengths: Problem-solving, Communication, Team Collaboration

PROJECTS

AI-Powered Interview Preparation Platform

React.js, Node.js Express, MongoDB, Gemini API, React SpeechRecognition API

- Built the backend for an AI-based mock interview platform that provides real-time feedback.
- Added speech recognition and text-to-speech features for interactive interview experiences.
- Designed basic database structure to store interview data and user progress.
- Implemented user login using JWT and created secure API endpoints.
- Contributed to the frontend using React and Tailwind to help build a smooth and engaging UI.

EasyRide-Vehicle Rental Website

HTML, Tailwind CSS, Javascript, Node.js Express, REST APIs, MongoDB

- Developed a full-stack vehicle rental platform connecting vehicle owners and renters for secure short-term vehicle rentals.
- For Vehicle Owners: Easy vehicle listing, rental management, earnings tracking.
- For Renters: search and filters options, real-time availability.
- Admin Dashboard: For user management, manual identity/Document verification for security.
- Collaborated with frontend teammates (HTML/Tailwind CSS/JS) to deliver a responsive and user-friendly interface.

Restaurant Management System — Frontend Web Development

- Developed a responsive and interactive website using core frontend web technologies.
- Created user-friendly pages for viewing menus, placing orders, and managing basic restaurant operations.
- Improved the overall look and feel of the website using modern CSS styling and interactive elements.

EDUCATION

IPS ACADEMY , Indore MP

Bachelor of Technology in Computer Science and Information Technology

CGPA:8.8

Aug. 2022 – JUNE 2026

The New Era Public School, Indore MP

Class 12th

Percentage:72

June. 2021 – March 2022

CERTIFICATES / ACHIEVEMENTS

- **Winner - UDAAN 2025:** Secured 1st place in college-level innovation competition among 30+ teams.
- **Participant-InnoNova Hackathon 2025:** Built a functional prototype within 24 hours.
