OBJECTIVE

Aspiring **Engineering Analyst Trainee and** Computer Science & IT undergraduate with strong fundamentals in Data Structures, DBMS, Operating Systems, and OOPs, and hands-on experience in application development using React, Node.js, Express.js, MongoDB, and MySQL. Experienced in understanding business requirements, application design, REST API development, unit testing, API validation, and technical documentation. Strong analytical, problem-solving, and communication skills with the ability to follow defined processes and tools in technology-driven projects.

SKILLS

Programming Languages	- C, C++, JavaScript
Frontend Technologies	- HTML5, CSS3, React.js
Backend & APIs	- Node.js, Express.js
Databases	- MongoDB, MySQL
Tools & Platforms	- Git, GitHub, Postman, VS Code, Excel, Word
Core CS Fundamentals	- Data Structures & Algorithms, DBMS, OS, OOPs
Soft Skills	- Analytical Thinking, Problem Solving, Team Collaboration, Documentation, Communication

EDUCATION

Institute of Engineering and Science,IPS Academy,Indore Bachelor of Technology in Computer Science and Information Technology	Nov 2022 - June 2026 CGPA: 8.8
The New Era Public School,Indore Class 12 th	June 2021 - May 2022 Percentage: 72%
Sandipani Vidya Vihar,Indore Class 10 th	June 2019 – July 2020 Percentage: 88 %

PROJECTS

AI-Powered Interview Preparation Platform | React.js, Node.js, Express.js, MongoDB, Gemini API

- Designed and developed secure REST APIs for an AI-driven mock interview platform using Node.js, Express.js, and JWT authentication.
- Designed MongoDB schemas and performed unit testing, API validation, and test case execution using Postman.
- Documented system workflows and supported frontend integration to enhance usability and collaboration.

EasyRide – Vehicle Rental Website | Node.js, Express.js, MongoDB, HTML, Tailwind CSS, Javascript

- Translated business requirements into backend modules for vehicle listing, booking, availability, and admin management.
- Built and tested REST APIs, implemented data validation, and supported secure database operations using MongoDB.
- Collaborated with frontend teams to deliver a scalable, responsive, and user-friendly application.

Restaurant Management System | HTML, CSS, JavaScript

- Developed responsive UI components for menu viewing, order placement, and basic restaurant operations.
- Enhanced user experience through structured layouts, modern styling, and interactive elements.
- Followed standard development practices and coding guidelines to ensure maintainability.

ACHIEVEMENTS & CERTIFICATIONS

- **Winner - UDAAN 2025:** Secured 1st place in college-level innovation competition among 30+ teams.
- Infosys Springboard- Database Management System certification.
- Scaler Topics- Data Structures & Algorithms in C++ certification.
